Retail

KEY FEATURES

High Accuracy

Reliable and consistent weighing results.

Sturdy Construction

Durable platform with strong MS frame and stainless steel top.

High Load Capacity

Suitable for a wide range of industrial applications.

Digital Indicator

Clear LED display for easy reading and operation.

Adjustable Feet

Ensures stability on uneven surfaces.

Low Power Consumption

Energy efficient and long working hours.

TECHNICAL SPECIFICATIONS

Platform Size (L x W)	Customizable (As per requirement)
Capacity	50 kg – 500 kg (Available in multiple ranges)
Accuracy	± 0.05% – 0.1% FS
Display	LED / LCD (Red / White)
Power Supply	AC 220V ±10%, 50Hz (or Rechargeable Battery)
Material	MS Frame + SS Platform
Load Cell	High Precision Load Cell
Operating Temperature	-10°C to 45°C
